The monies deposited in the Oklahoma 9-1-1 Management Authority Revolving Fund shall at no time be monies of the state and shall not become part of the general budget of the Office of Emergency Management or any other state agency. Except as otherwise authorized by the Oklahoma 9-1-1 Management Authority Act, no monies from the Oklahoma 9-1-1 Management Authority Revolving Fund shall be transferred for any purpose to any other state agency or any account of the Office of Emergency Management or be used for the purpose of contracting with any other state agency or reimbursing any other state agency for any expense. The cost of the audit of the 9-1-1 emergency telephone system may be paid from and be considered a part of the operating expenses of the 9-1-1 emergency telephone system. Proprietary information of the wireless service providers shall be confidential. Audit information pertaining to revenue collected or disbursed may be released only in aggregate form so that no provider-specific information may be extrapolated.
- F. Public agencies shall be required to annually submit to the Authority:

- G. The Authority shall have the power to review, approve, submit for further information or deny approval of the annual report of each public agency required pursuant to subsection F of this section. Failure by a public agency to submit the report annually or denial of a report may cause the Authority to order the Tax Commission to escrow the 9-1-1 emergency telephone fees due to the public agency until the public agency complies with the requirements of the Oklahoma 9-1-1 Management Authority Act and the procedures established by the Authority.
- H. The governing body of the public agency shall meet at least quarterly to oversee the operations of the 9-1-1 emergency telephone system, review expenditures and annually set and approve an operating budget, and take any other action as necessary for the operation and management of the system.

On or before December 31, 2017, all public agencies in this state shall form regional emergency communication districts for the purpose of creating an area-wide emergency 9-1-1 system for their respective jurisdictions. The territory of the district shall be coextensive with the territory of the regional substate planning district unless a different territory is approved by the Oklahoma 9-1-1 Management Authority. If a public agency is situated in more than one such territory, it shall become part of the district in which it is principally located. If, due to the effect of subsection C of this section, the majority of the participating public agencies located in the territory of a proposed district determine that it would be in the best interests of their citizens, they may request inclusion in an adjacent district.

- F. The public agencies to be included in each district may form the district by entering into local cooperative agreements which shall establish a governance structure and provide for the joint implementation, funding, operation, and management of the district.
- G. If the public agencies in a region are unable to develop a local cooperative agreement by December 31, 2017, they shall be included in an emergency communication district that is governed by a board of directors consisting of an appointee by each public agency that was authorized by its voters to fund a 9-1-1 system prior to the formation of the district, one appointee elected by a majority of the remaining public agencies in the district, and an additional appointee by the principal municipality in the district who shall serve as chair of the board.
- H. Unless otherwise provided by agreement, any participating public agency that had been authorized by its voters to fund a 9-1-1 system prior to the formation of the district shall retain control of the property, operation, and funding of its system; provided, however, the district may contract with such participating public agency to include the agency's system in the district's master implementation plan. To the extent practicable, the district shall not duplicate the equipment or answering point services already provided by a participating public agency. A user of one or more communication services subject to the payment of fees or taxes for an emergency 9-1-1 system shall not be charged for more than one such fee or tax for each service.
- I. An emergency communication district shall have power to make all contracts to carry out the purposes of the Regional Emergency 9-1-1 Services Act, purchase and convey real property, impose service fees authorized for public agencies for the provision of 9-1-1 service, appoint a manager of the district, and adopt rules and policies for the operation of the district.
- J. Within one (1) year after the effective date of the formation of the district, the board of directors shall submit its master plan to deliver Phase II emergency 9-1-1 service throughout its territory to the Oklahoma 9-1-1 Management Authority for approval. The Authority shall have the power to prescribe the terms of the plan and to approve or disapprove the master plan. Additionally, the Authority shall have the power to request the Tax Commission to escrow the wireless fees attributable to the public agencies which have not submitted a master plan or which have not complied with the terms of the master plan.
- K. An emergency communication district shall operate on a fiscal year beginning July 1. It shall adopt an annual budget and cause to be prepared an independent financial audit annually. As soon as practicable after the end of the fiscal year, the district shall deliver to each participating public agency an annual report showing in detail the operations of the district.
